

# Project Proposal

Amanda Cohoon

March 7, 2015

## Objective

Build a chat room service web app.

## Goals

- Users can create new chat rooms
- Chat rooms can be accessed by name
- Chat rooms have name and descriptions that can be updated
- Messages are saved under chat room IDs

## Database Outline

MESSAGE		ROOM	
messageID	int	roomID	int
username	String	roomName	String
message	String	description	String
roomID	int (roomID FK)
