Chattr

A screenshot of the Chattr application's 'Create Room' form. The form is divided into two sections by a vertical line. The left section contains a blue link that says 'Slack Replacement - Also better than TODO list by Lewis'. The right section contains two text input fields labeled 'Room Name' and 'Description', and a 'Create Room' button below them.

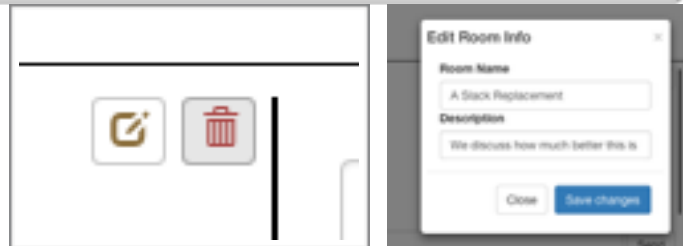

Creating a room adds the room to the room list, the room is a clickable link which when clicked loads the list of messages in that room. Messages are posted from the message view. The room list can be accessed by pressing the back button beside the room name.

Chattr

A screenshot of the Chattr application's 'Message' view. The view is divided into three sections. The top section shows a back arrow, the room name 'Slack Replacement', and a message 'Waaayyy better.' with a user icon. The middle section contains two icons: a pencil (edit) and a trash can (delete). The bottom section contains a text input field labeled 'Message' and a 'Send' button. On the right side, there is a 'Create Room' form with 'Room Name' and 'Description' fields and a 'Create Room' button.

From inside the message view, you can update the room title/description, post a message, or delete the room entirely along with all the messages in it.

A screenshot of the Chattr application's 'Edit Room Info' dialog. The dialog is a small window with a title bar that says 'Edit Room Info'. It contains two text input fields labeled 'Room Name' and 'Description'. The 'Room Name' field has the text 'A Slack Replacement' and the 'Description' field has the text 'We discuss how much better this is'. There are 'Close' and 'Save changes' buttons at the bottom.
